■ Help prevent trips and falls for patients and staff

■ Keep cords organized

■ Maintain sterile environments

Keep it all together

Hospitals and labs use a multitude of cables and cords every day—in the O.R., for patient monitoring, ultrasound, radiology, and more. You need a cable management solution that ensures all cables and cords are well secured and kept clean and sterile—for the safety of both your patients and your staff. AliMed is your partner for organized and safe medical cord management. We offer a range of products to help you secure all your cords, tubes, cables, and wires:

AliStrap® Precut Positioning Straps come in a variety of sizes and are individually wrapped and ready to use with no cutting required. Self-adhering back-to-back hook-and-loop closure keeps any size cables and tubing secure and neatly organized.

Flagship Surgical Safe Cord™ Floor Strips cover cords and cables on O.R. floors. Bright yellow for optimal visibility, durable and disposable adhesive strips secure to the floor with no residue left behind.

AliMed Caster Guards surround casters to keep wheels from gliding and free from cord entanglement.
