

Break down language barriers

■ Available in 21 languages

■ Inexpensive, disposable, easy-to-read tool

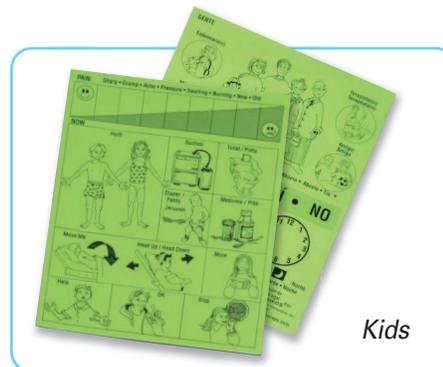

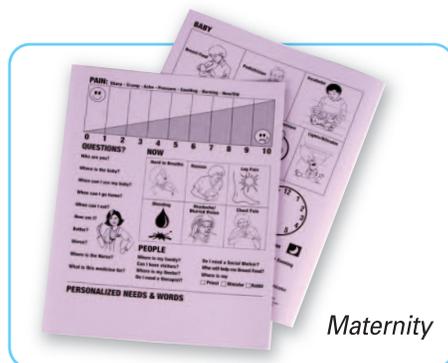

Critical Communicators

Staff communication with all clients and families is critical to providing quality care and treatment. **Critical Communicators** are inexpensive, easy-to-use tools that break down language barriers with non-English-speaking clients or those with speech/hearing problems. These four-page pamphlets help facilities meet mandated communication guidelines, reduce misdiagnoses and client anxiety, and assist staff in all client interactions.

Available in 21 languages, **Critical Communicators** include words and pictures to communicate basic needs, pain (ache, burn, sharp), comfort (head up/down), people (husband/wife, doctor); as well as the alphabet, numbers, and days of the week.

Disposable; bold print; 8½" x 11" card stock; four-page menu format.

Also available for Maternity and for Kids:

To order, see reverse side.

See reverse for additional **Speech Therapy products**
