

The Complete Fall Management Solution

Patient Room Safety

In-room solutions for patient safety

Successful patient safety programs start with ensuring your patient's room is equipped with appropriate preventative measures designed to reduce the risk of injuries resulting from falls. AliMed's wide-ranging, in-room safety devices are critical additions to any comprehensive Fall Management program, providing an additional layer of security for patients.

1. Non-Alarmed Fall Mats These impact-absorbing, durable mats help cushion falls and prevent serious injury.

2. Bed Rails AliMed offers an extensive selection of bed rails including traditional models to help prevent falls when getting in and out of bed, and transfer handles to promote safer, easier bed mobility while lessening the risk of injury to both patients and caregivers.

3. Wandering Deterrents Implementing a deterrent program utilizing easily recognizable

signs provides reliable safeguards against wandering.

4. Edge Protection Strategically placed, customizable edge protectors attach to furniture or doorways and soften sharp corners and hazardous edges, adding another layer of protection for wandering or disoriented patients.

5. Slip and Trip Prevention Anti-slip mats and cord management devices provide a second line of defense against common tripping threats.

Personal Protection and Identification

Safeguard your fall-risk patients

Wearable personal devices for patients at high risk of falling are an essential part of any Fall Management program to help protect fragile body parts from potentially dangerous injuries.

Round out your program with a wide assortment of color-coded **Fall-Risk Identifiers** such as bracelets, socks, and other indicators designed to increase staff awareness of at-risk patients and integrate easily with any established system.

Everything you need for Fall Management

Fall Alarms

Simple, easy-to-use, and full-featured alarms quickly alert staff when patients leave their bed or chair.

Sensors

Sensor options are designed to work in tandem with AliMed Fall Alarms to promptly alert caregivers when a patient tries to exit a bed, chair, or room, creating an effective and reliable Fall Management monitoring solution.

Patient Room Safety

Environmental devices protect patients against falls and prevent tripping, wandering, and other injuries in patient rooms.

Personal Protection and Awareness

Wearable personal devices can prevent slipping and protect vital body parts, such as head and hips, from serious injury. Color-coded identifiers integrate with any Fall Management system.

Count on AliMed

AliMed's complete line of Fall Management solutions is specifically designed to minimize falls, reduce the risk of injury, and improve overall patient safety—all day, every day. Count on AliMed for everything you need for a complete Fall Management program.

Fall Alarms

Experience AliMed alarms and experience the difference

AliMed offers a complete line of easy-to-use, high-quality, and reliable fall alarms—alerting caregivers and staff to wandering and fall-risk patients, protecting them from serious injury.

Choose the Worry-Free brand for easy-to-use, hassle-free alarms, or the feature-rich, robust IQ Alarms.

Worry-Free Alarms No batteries to replace, no setup—ever! The Worry-Free Personal Pull-Cord and Sensor Alarms are AliMed’s most economical alarm solutions with training-free functionality for reliable patient protection. Sensor Alarms can be set up inside or outside a room.

IQ Alarms AliMed’s full-featured, easy-to-configure alarms include sensor only models, dual-purpose devices with pull-cord and sensor functionality, and recordable voice-prompt options.

Sensor Equipment

Pair the right sensor

Sensor Pads, Belts, Cushions, and Floor Mats to create a complete Fall Management system

Protect wandering and fall-risk patients from serious injury—pair your AliMed Fall Alarm with a companion sensor device to create a complete Fall Management system. Corded and cordless sensor options are designed to work in tandem with AliMed Fall Alarms to promptly alert caregivers when a patient tries to exit a bed, chair, or room.

AliMed offers a broad selection of sensor options to help you create the most effective and reliable fall monitoring system for your patients' needs.

See page 5 for our full line of Fall Management alarms designed to be used with these Sensor devices.

Bed Pads

A range of pressure and cordless bed sensor pads provide dependable and durable patient-monitoring options for short- or long-term stays.

Floor Mats*

Slip-resistant bedside and doorway floor mats warn staff when wandering patients attempt to leave their bed or room. Cordless and low-profile options minimize tripping, and padded mats provide extra cushion to prevent serious injury.

*Alarmed floor mats are compatible only with the IQ Sensor Contact Alarm, see AliMed.com/fm for details.

with your fall alarm

Belts

Roll-control belts monitor restless patients and provide freedom of movement in bed without causing false alarms, while seatbelt sensors for both wheelchairs and standard chairs allow caregivers to quickly respond to patients before a fall occurs.

Cushions

Built-in sensor seat cushions combine the comfort of a foam cushion with the reliability of a no-slip sensor pad to guard against forward slipping and reduce the risk of dangerous wheelchair falls.

Breakaway alarmed lap cushions with trunk and arm support simultaneously remind patients to remain seated and alert caregivers when patients try to stand.

Chair Pads

A range of pressure and cordless chair sensor pads provide dependable and durable patient-monitoring options for short- or long-term stays.

Partners in the Continuum of Care

AliMed is the only niche manufacturer and distributor with on-site customization capabilities. This complements a vast portfolio of in-stock, specialty healthcare products designed to improve patient outcomes and experiences. Serving patient needs spanning hospital to home, AliMed has built its reputation on responsiveness, exceptional customer service, and high-quality offerings.

The AliMed Advantage
