

## Choose the right cart for *any* emergency

### STANDARD

#### Durable and affordable

Economical option made from durable steel—built to last, guaranteed. Also available in Quick-Ship models ready to ship in five days or less.

### SELECT

#### 30% lighter—loaded with features

Aluminum construction is lighter than our Standard Series for effortless handling that gets you there faster. Larger work surface area plus movable mounting panels to load up on accessories.

### MINI TOWER

#### Standard functionality, compact size

All the functionality and features of our Standard Series in a compact, fully mobile size so you can easily maneuver through narrow hallways or congested areas.

### MINI CART

#### Space-saver model

Space-saving, narrow design easily fits under counters or at bedside. Ideal for when mobility needs are limited.

■ Organized, portable, and secure storage

■ Durable construction

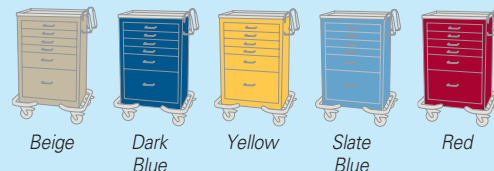

■ Multiple models for any need

### Emergency Medical Carts

provide organized, portable, and secure access to all your critical-care emergency supplies to meet the everyday demands of your department while maximizing staff efficiency for better patient outcomes.

#### Standard features on all carts:

- Double-wall construction
- Ball-bearing drawer slides with full-extension drawers
- Breakaway lock
- Solid or two-tone frames with choice of color
- Durable powder-coat paint
- All-swivel casters

### Pediatric Carts

Designed for Pediatric departments and color-coded in the Broselow color system to easily identify the correct supplies.

### Accessory Packages

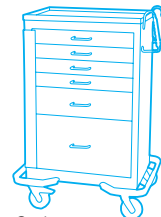

**SAVE** when you order one of our pre-bundled packages featuring our most popular, must-have accessories, or order just the accessories you need.

### Custom Carts

**Have a unique need?** Design your own cart with your choice of drawer configurations, expanded color choices, locking options, and accessories.
