

Designed for versatility

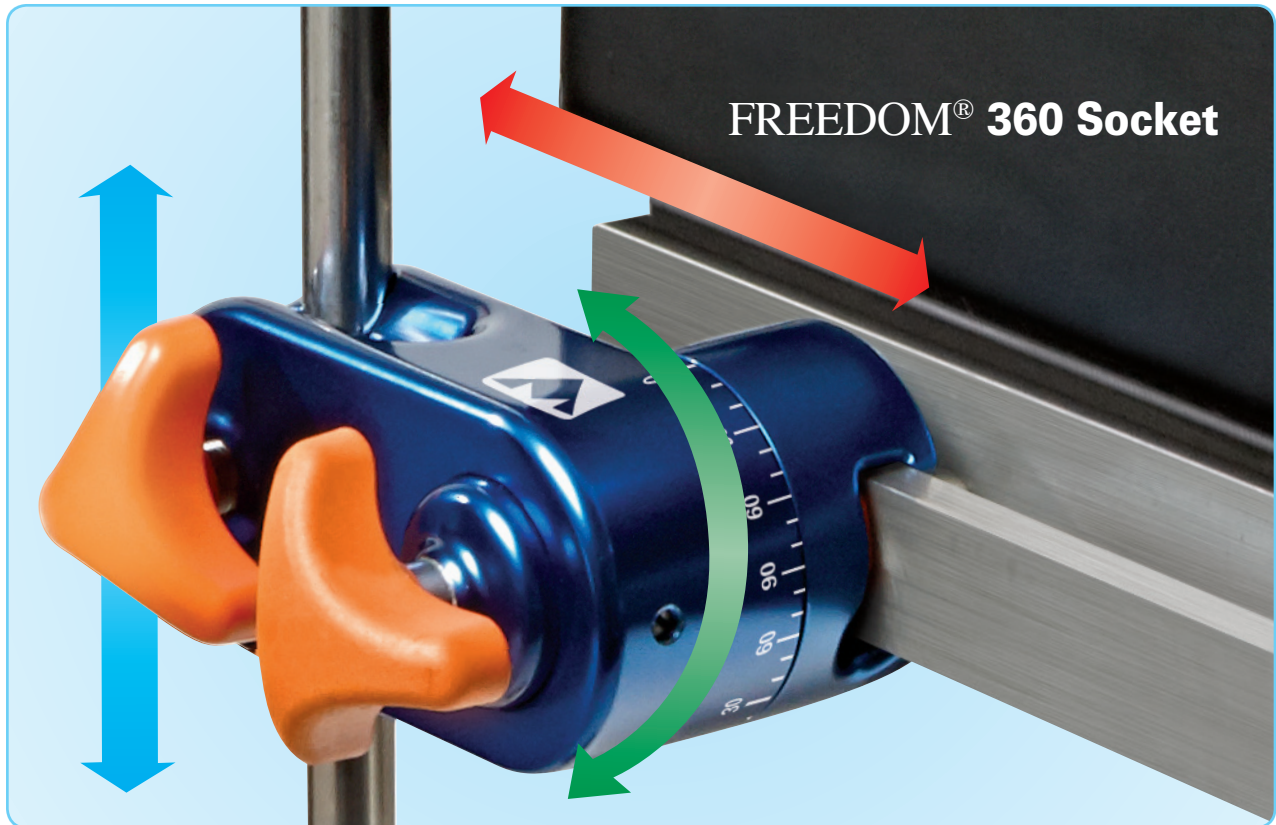

Table Socket Family

Simple, durable clamps securely hold O.R. table accessories

From our **Original Clark Socket** to the **FREEDOM® 360 Socket** with multiple adjustment options, there's an AliMed Socket for every need. Each is designed for ease of use, durability, and versatility, and they're all backed by a 3-year limited warranty. Choosing the right Clark Socket depends on the following:

- **Accessory position:** whether rotating (angled) or fixed (perpendicular or parallel to the table) during procedures
- **Rotation range:** AliMed Clark Sockets adjust quickly and precisely in 12°, 9°, or 5° increments
- **Accessory compatibility:** choose between flat blades (1"W x ¼" thick) or round posts (1½" diameter), or save time by choosing a clamp that accepts both
- **Table accommodation:** fits all O.R. tables with U.S. side rails (¾"W x 1½"H)
- **Quality materials:** choose durable stainless steel or anodized aluminum, which is 50% lighter
- **Guaranteed** with a 3-year limited warranty
