

Minimize scatter radiation risks and Defend your thyroid

- **Protect your thyroid while guarding against infection**
- **Full 0.5 mm Pb-equivalent protection**

Ultralight Disposable

Single use eliminates cleaning and disinfection

Grab 'n Go™

Internal seam and no top binding helps prevent chafing

Fluidproof

Antimicrobial and impervious to liquids

MagnaGuard™

Antibacterial fabric and magnetic closure help avoid bacteria buildup

The thyroid is one of the most radiation-sensitive organs in the head and neck. Wearing a **Thyroid Shield** during procedures helps to reduce harmful radiation doses by as much as 45%¹.

AliMed offers a wide selection of Thyroid Shields that each feature full 0.5 mm Pb-equivalent protection. Our economical **Ultralight Disposable** and antimicrobial **Fluidproof** styles provide single-use or reusable infection protection, while Grab 'n Go™ shields have an internal seam and no top binding to help prevent chafing. **MagnaGuard™** Thyroid Shields feature antibacterial UltraFlex™ fabric and a magnetic closure that fights bacteria buildup.

¹American Thyroid Association, Policy Statement on Thyroid Shielding During Diagnostic Medical and Dental Radiology, 2013.
