Full-Body Slings
- #HWW78258 Mesh Seat .......................$119.75 ea
- #HWW78259 Mesh Seat, Commode ..........127.00 ea

Universal Split-Leg Slings
- #HWW72080 Padded Seat ...................$191.75 ea

Bariatric Slings Our high-quality, value-priced slings are rated to 600 lbs. and available in Full-Body or Universal Split-Leg (or “U”) shape versions. Made with durable yet soft polyester material. 

**Full-Body Slings** are manufactured to the same weight, size, and color specifications as the leading name brand.

**Universal Split-Leg Slings** are easier to apply than Full-Body Slings when patient is seated in a chair or bed. Simply mold around the patient’s body rather than pulling underneath and risking skin injury. This makes them easier to use and safer than Full Body slings when patient is seated in bed or chair. Six loops increase safety and weight distribution for superior comfort. Full-Body Slings available in mesh fabric with or without commode openings. Slings fit most 4- and 2-hook lifts from leading manufacturers, including Invacare, Apex, Joerns/Hoyer, and Vancare.

45"W x 57"L. 600-lb. capacity.

Toilet Supports, Seats, and Risers

For bariatric patients, facility bathrooms can pose serious safety risks if not equipped with proper equipment. Industry standards* require that all wall-mounted toilets pass a 500-lb. static load test to avoid any breakage that could result in injury. Retrofitting with toilet supports and bariatric-rated toilet seats reinforces wall-mounted toilets to increase weight capacity. High-capacity toilet seat risers and commodes make it easier for larger patients to rise from the toilet and increase independence. *(ASME A112.19.2)

No more broken fixtures

Bariatric Toilet Support  Easy fit, easy clean with high-impact ABS leg and flexible, stain-/chemical-resistant PVC carriage that conforms to the contour of the bowl. Fits under most wall-mounted toilets. Tool-free installation. Easy height adjustment. Meets SRC criteria for centers of excellence.
1,000-lb capacity • Standard: height adjusts 7½"-14" • Short Swivel: height adjusts 5"-7½"

Standard— Adjusts 7½"-14"

Short Swivel— Adjusts 5"-7½"

Bariatric Toilet Seat

Wider and higher than standard toilet seats—19"W from side to side and 2½"H. Offers a safer, more comfortable sitting surface. Fits standard and elongated toilets. Unbreakable stainless steel hinges. Large bumpers grip bowl and keep seat from sliding. Available with or without hinged seat cover.
Stain- and chemical-resistant • White • 1,200-lb capacity

Bigger, stronger toilet seat

Wall-Hung Toilet Support  Add strength and stability to any wall-mounted toilet. Steel support with adjustable leg will upgrade your current toilet, giving it a weight-bearing capacity of over 1,000 lbs.

Stabilize any wall-mounted toilet

Easy Riser™

Rises seat by 3"

Hinged Secure-Bolt™ Elevated Toilet Seat

secures to toilet (using existing seat bolts) for a safer, more permanent attachment. 3"H. Seat can be lifted/lowered for easy cleaning. Can be used with regular seat/lid to help maintain the look and feel of a traditional toilet. Open front for easy hygiene access—can be closed with filler piece (included). 600-lb. capacity.

Alternative to raised toilet seats

Easy Riser™

Rises entire toilet by 4". Installs at toilet base, allowing user to continue using existing seat. Safe and sturdy. No extra parts to clean. Easy, permanent installation.
Comes complete with a one-piece molded PVC base • 2 closet bolts (6"L), 2 wax rings, 1 extended water pipe, 2 washers, 2 nuts, and complete installation instructions • Base is 11½"W x 23¼"L x 4"H • 800-lb. capacity.

Suitable for standard and elongated toilets.

Stainless steel hinges

Rubber bumpers
Accommodates extra girth

Bathing and Hygiene Aids

While the use of bath benches, commodes, or gurneys for daily hygiene and bathing care is common, standard bath safety equipment typically has a 250- to 300-lb. capacity and limited seat width. This is not sufficient for the bariatric patient. AliMed offers a number of high-weight-capacity bathing solutions to ensure the safety and comfort of even your largest patients.

**Drive Medical Deluxe Bariatric Bath Bench**

- Drainage holes in seat reduce slipping. Includes handholds on seat and back. Limited lifetime warranty. [OS]
- Base: 18"W x 17½"D • Seat: 20"W x 12"D • Adjustable height: 14"-21"
- Rust-proof • Aluminum frame
- 7.4 lbs w/back; 6 lbs w/o back
- 500-lb. capacity

Bariatric Seating

Standard facility seating cannot accommodate the weight and size of most bariatric patients. Standard wheelchairs are only 18” W and most side chairs can only safely hold up to 250 lbs. Facilities need to have seating readily available for any patient who comes through the doors. All of our bariatric-rated seating options are extra-roomy, durable, and built to fit your largest patients.

Ascender Bariatric Chairs

Function as both a transport and room chair. High seat makes sit-to-stand easier and helps prevent hip dislocation. Antimicrobial vinyl upholstery. Natural wood finish.

Skin Protection and Safety
Pressure sores and ulceration risk are a top concern with any patient, even more so with bariatrics patients. Our wheelchair cushions are available in widths up to 30" and offer exceptional skin protection with either shear-reducing gel or pressure-reducing memory foam that won’t bottom out, even under a heavy load. AliMed also offers bed positioning wedges and heel protection sized to fit your largest patients.

Cushions up to 30"W

Bariatric Tri-Foam Wheelchair Cushions Three distinct layers: 2" top-layer of T-Foam™ memory foam for exceptional pressure distribution, 1" middle layer of open-cell foam for pressure reduction, and 1" bottom layer of closed-cell foam to help reduce pressure and to prevent bottoming out.

Fits wheelchairs up to 30"W • Black waterproof cover is washable • 1,000-lb. capacity

#HWW11074 20"W x 18"D ... $188.00 ea ........ $168.00 ea (3+)
More sizes: 22"W x 18"D; 24"W x 18"D; 26"W x 18"D; 28"W x 18"D; 30"W x 18"D; 30"W x 20"D available on AliMed.com

Elite Cushions For moderate- to high-risk users. DuraGel™ inserts provide relief at critical pressure points and will not leak. Moderate slope from front to back with medial/lateral thigh positioners and lateral pelvic supports.

AT Model is an anti-thrust cushion with a pre-ischial bar for greater pelvic stability. Durable for long-term use. Black fluid-proof stretch cover. Meets CAL 117 testing. Two-year warranty.

#HWW1423 Elite, 20"W x 18"D ....... $159.00 ea
#HWW1433 Elite AT, 20"W x 18"D..168.00 ea
More sizes: 20"W x 20"D; 22"W x 18"D; 24"W x 18"D; 22"W x 20"D; or 24"W x 20"D available on AliMed.com

Gel comfort, shear protection

T-Gel Wheelchair Cushions Excellent for applications that require minimal thickness for use on any sitting surface. T-Gel polymer gel “slides” laterally, effectively reducing harmful shear forces and skin-damaging friction.

T-Gel Plus Wheelchair Cushions combine the benefits of T-Gel with those of slow-recovery T-Foam for even better pressure distribution and shear reduction. Black stretch knit cover (not shown). Each cushion measures 20" x 18", 5½ lbs. Smooth: ¾"H. Checkerboard: ¾"H.

For more information, visit us online at www.AliMed.com or call us at 800.225.2610.
Safe handling of bariatric patients poses some of the greatest safety risks to patient and staff. Lifting equipment must be bariatric-rated with clearly posted weight capacities to ensure safety. Devices that support no-lift transfers and repositioning programs aid in skin protection and help to ensure quality care.

**Electric Patient Lift**
Easily switches to manual mode when necessary. Easy charge in AC outlet. Audible warning when battery power falls below 50%. Foldable mast and base for easy transportation. Holds 4- and 2-point slings. Digital scale sold separately.

- 41" L x 76" H • Spreader bar: 32"-74½" H • Base closed: 25¾" W
- Base open: 45½" W • Overall base: 2" H • Front casters: 3" diam.
- Rear casters: 4" diam. • Lifting mechanism: 24 VDC Linear Actuator
- Battery: 12V 4½ AH x 2 • Battery charger: AC 110V/220V to DC 24V 1 AMP • 127 lbs. • 600-lb. capacity

#HWW70030 Lift.................. $3,143.75 ea
#HWW70137 Digital Scale........ 1,133.75 ea

**Bariatric Slings**
Our high-quality, value-priced slings are rated to 600 lbs. and available in Full-Body or Universal Split-Leg (or “U” shape) versions. Made with durable yet soft polyester material. Full-Body Slings are manufactured to the same weight, size, and color specifications as the leading name brand. Universal Split-Leg Slings are easier to apply than Full-Body Slings when patient is seated in a chair or bed. Simply mold around the patient’s body rather than pulling underneath and risking skin injury. This makes them easier to use and safer than Full Body slings when patient is seated in a chair or bed. Six loops increase safety and weight distribution for superior comfort. Full-Body Slings available in mesh fabric with or without commode openings. Slings fit most 4- and 2-hook lifts from leading manufacturers, including Invacare, Apex, Joerns/Hoyer, and Vancare. 45" W x 57" L. 600-lb. capacity.

**Full-Body Slings**
#HWW78258 Mesh Seat .................... $119.75 ea
#HWW78259 Mesh Seat, Commode ........ 127.00 ea

**Universal Split-Leg Slings**
#HWW72080 Padded Seat ................ $191.75 ea

**Stella Stand Assist Lift**
Pneumatic power lift uses torso sling to lift patient into standing position by bracing knees. Once patient is in standing position on platform, caregiver can turn lift to pivot patient. Less time required for lift and transfer. Secure and safe for both patient and caregiver. Doubles as a commode lift for additional flexibility. Quick and easy access for hygiene and changing. Assists with supported weight-bearing exercises and can help to strengthen leg muscles, unlike a traditional lift. Height-adjustable leg and knee support. Detachable foot platform. Foot pedal base opening. Buttock Strap (not shown) and Sling sold separately.

- 40" L x 68" H • Spreader bar: 33½"-68½" H • Base closed: 26½" W (external); 21½" W (internal) • Base open: 37" W (external); 32½" W (internal) • Overall base: 4½" H • Front and rear casters w/brake: 6" diam. • Lifting mechanism: 24 VDC Actuator
- Battery: AC 110V/220V to DC 24V 1 Amp • 122 lbs. • 600-lb. capacity

Reposition without lifting

How the “No-Lift” BOOSTER™ works

Roll resident onto one side and place BOOSTER underneath.

“No-Lift” BOOSTER™ Boost patients up to 600 lbs! Tubular shape and frictionless fabric work together, allowing lateral motion without lifting. Reduces caregiver back strain, makes resident easier to move toward the headboard without lifting. Simply position patient on top of Booster just as you would with a draw sheet, grab the reinforced handles, and slide upwards. Eliminates draw sheet drag and shear.

Flat dimensions: 46”W x 46”L • 600-lb. capacity
• Black • Machine-washable, air-dry • Disinfectant-safe

#HWW75582 Bariatric Booster....$107.00 ea .....$96.00 ea (3+)
#HWW71444 Hanging Bags..........8.00 ea........7.00 ea (6+)

How the “No-Lift” TURNER™ works

Roll resident onto side to position TURNER under patient’s hips and shoulders.

“No-Lift” TURNER™ Reposition patients up to 750 lbs! Tubular shape and frictionless fabric work together, allowing for lateral motion without lifting. Use two caregivers to position, only one to move most sidelying residents up to 250 lbs. Eliminates drawsheet drag and shear—won’t compromise patient skin integrity.

Flat dimensions: 46”W x 46”L • 750-lb. capacity
• Black • Machine-wash, air-dry • Disinfectant-safe

#HWW712177 Bariatric TURNER....$107.00 ea.......$96.00 ea (3+)

Wheelchairs
p. 9
**The strap for any size patient**

**Perfect strapping solution for wheelchair and table applications**

**AliStrap™** Never worry again about finding special-length straps or matching pieces of VELCRO®. Just cut a length from the AliStrap roll and wrap it onto itself for secure attachment. Hook and loop are permanently combined, back-to-back, into one continuous 30-foot roll. The perfect size every time!

**No adhesive** or sticky tape residue to damage expensive equipment; no more fumbling with messy tape; no more adhesive pull hurting patients. **Exclusive Soft Edge™ design** acts like a soft padded edge. By eliminating sharp, rigid edges commonly found on other straps, you protect the patient's skin from irritation and discomfort.

**AliStrap is the answer to all your taping, positioning, tie-down, restraining, and strapping needs!** One strap...countless uses.

**30' length, four widths to fit every need**

**QUESTION OR RETURN?** Customer Service, x6901

**MINIMUM BILLING** Orders are subject to a $25.00 minimum merchandise billing plus shipping, handling, and insurance. International orders (except Canada) require a $300.00 (U.S.) minimum order.

**TERMS** Net 15 to established accounts. All prices F.O.B. shipping point. Shipment made at prevailing price at time of order. All prices in U.S. $.

**IMPORTANT NOTICE:** Prices are professional wholesale. Patient may order directly; retail pricing applies. Prices, availability, and specs subject to change. Visit www.AliMed.com for the most current pricing. Items may be discontinued at any time. AliMed reserves the right to substitute similar products to those shown in catalogs at any time. Overdue accounts are subject to a late payment fee of 2.0% per month, resulting in an annual rate of 24%.

**Volume Discounts:** Item numbers, sizes, colors, Lefts and Rights, etc. cannot be assorted for a volume discount. One item #, one style per volume discount order (unless otherwise specified).

**SHIPPING** We ship FedEx/UPS whenever possible. Charges are prepaid and added to invoice. Freight shipments are freight collected. See Shipping Rate Table for exact charges.

**DAMAGED GOODS/SHORT SHIPMENTS**

- All truck shipments must be fully inspected by the receiver before signing for the delivery to ensure there is no concealed damage.
- If you cannot inspect immediately, make a note "pending inspection" with your signature. Any damaged shipment received should be refused by the receiver. These guidelines must be strictly followed in order to receive any credit on Truck shipment orders. **Overnight Truck Shipments – AliMed does NOT provide overnight delivery on orders that require delivery by truck.**
- **Damaged Goods/Short Shipments** Must be reported within 10 days of receipt. Be sure to note any damage or poor box conditions when signing for packages. If shipment arrives damaged or with parts missing, contact the carrier immediately. Be sure to save product packaging. All shipping charges and risk of loss are FOB shipping point and are the responsibility of the purchaser.

**RETURNS**

- **Question or Return?** Customer Service, x6901

- **Overnight Truck**

  - When signing for packages. If ship
  - To ensure prompt return processing, please attach the original packaging. All shipping charges and risk of loss are FOB shipping point and are the responsibility of the purchaser.

**OVERSIZED CHARGES** Apply to all orders including contract orders, items with free ground shipping, and free shipping promotions.

**GLN** #073365700009

**TAX** Applies to all orders shipped in MA, MI, SC, SD, and WA. If you are tax exempt, please forward a copy of your tax exempt or resale certificate. If your facility is not in MA, MI, SC, SD, or WA, please submit use tax directly to your state.

**INSURANCE** Your shipment is 100% insured against loss or damage.

**RETURNS** Our return policy is consistent in maintaining the best value and highest service level for all of our customers. If the merchandise you received is defective or not as ordered, please contact our customer service staff for quick resolution.

All other returns will be subject to a 20% restocking fee ($10.00 minimum) except “Special Order” items that have been “drop shipped.” (These items will be subject to a restocking fee that may vary at the discretion of the individual vendor.)

- The guidelines below must be followed in order to receive any credit:
  - Merchandise credit only
  - Product must be in new, resaleable, unmarked condition and in original packaging
  - Merchandise must be returned within 30 days of invoice date
  - Custom products, beds, books, videos, shoes, eating utensils, and toileting products are not returnable
  - Open packages cannot be returned for credit

To ensure prompt return processing, please attach the original packing list, invoice or RA number to the return. Refunds will be for merchandise value only. Please allow three to four weeks for return processing.

**TRUCK SHIPMENTS Delivery Inspection Required**

- **IMPORTANT NOTICE:** All truck shipments must be fully inspected by the receiver before signing for the delivery to ensure there is no concealed damage. If you cannot inspect immediately, make a note “pending inspection” with your signature. Any damaged shipment received should be refused by the receiver. These guidelines must be strictly followed in order to receive any credit on Truck shipment orders. **Overnight Truck Shipments – AliMed does NOT provide overnight delivery on orders that require delivery by truck.**

**Weight Capacity Labels**

- All labels allow quick recognition of equipment weight capacity, while maintaining patient dignity with a discreet visual identifier. Labels also help facilities meet SRC criteria for centers of excellence.* 1 1/2” x 1 1/2” vinyl labels printed in large type that can be seen from 6-8 feet away. 400-lb. capacity label shows an image of a dove and the number 40. Variety Pack of 175 labels: (25 labels each of “30,” “40,” “50,” “60,” “70,” “80,” “100”).

**Use anywhere!**

- **Wood:** Chairs, crutches, rehabilitation treatment tables, etc.
- **Metal:** Wheelchairs, walkers, canes, patient lifts, etc.
- **Plastic:** Patient shifters, transfer boards, etc. Labels can be sprayed and wiped with disinfectant.

  **#073365700009**

*Surgeonal Review Corporation (SRC) requires that facilities have equipment available for morbidly obese patients and that all staff members can easily recognize the weight capacity for each piece of equipment. See: http://www.surgicalreview.com/5AG/v4e$5COE.aspx#Equipment

**SHIPPING RATE TABLE**
