

## Tactile activities for soothing interaction

- Diverts attention of anxious clients

- Simple activities can stimulate conversation

### Activity Pillow

The plush pillow can be strapped to any bed or tray to occupy the elderly or those with dementia. The Activity Pillow uses simple tactile stimulators such as zippers, buttons, VELCRO®, and buckles to help divert attention, keep hands busy, and calm racing minds.

All items are permanently attached to prevent swallowing hazards or misplacement. Machine washable.

### Ordering Information:
