Call for  
custom sizes!

Soft and strong.  
Trim to any length—  
four widths available!

- Radiolucent for O.R. and Imaging environments
- Versatile—available in multiple widths and lengths
- Single-patient-use for infection control

### Universal Table Straps

Extraordinarily strong, highly versatile, and pre-configured to match your table, allowing you to quickly and safely secure patients during any procedure. The red hook side adheres to either side of the soft blue loop for a strong hold that is safe against skin. Disposable for fast, easy cleanup and to help reduce cross-contamination risk. Easily shorten the **one-closure** strap by overlapping or trimming the blue loop. With **two closures**, secure smaller patients by cinching up the side rail ends. **Three-closure** strap allows for quick and easy patient access.

### Pre-configured to match your table and save you time!

#### A. Simplest

One-piece • One closure  
Encircles patient and table

One closure

No side rails

#### B. Strongest

One-piece • Two closures  
Loops through side rails

Two closures

Side rails

#### C. Easy Rapid Patient Access

Two-piece • Three closures  
Loops through side rails

Three closures

Side rails
