

Keen® Journey™ Elite 3" Cushion

Up to Stage IV
Wound/History
Braden Scale ≤ 11
Weight Limit: 350 lbs
Skin Protection

Product Description

- Designed for individuals with or at High Risk for skin breakdown
- Utilizes Sanosphere™ Technology that envelops bony prominences, providing ultimate comfort and pressure redistribution
- Revolutionary technology is pressure zoned
- The top layer of Visco-Elastic memory foam conforms to bony prominences
- The Elite is lower in profile than the Elite Contour Plus
- No maintenance required**
- Good for **self-transferring individual**
- Choose Performance or EZ cover style.

Select EZ Covers by adding EZ directly to the end of the Item # when ordering (Example E3-16x16EZ)

Keen® Journey™ Elite 3" Cushion	
Item #	Size (W x D)
E3-16X16	16" x 16"
E3-16X18	16" x 18"
E3-18X16	18" x 16"
E3-18X18	18" x 18"
E3-18X20	18" x 20"
E3-20X16	20" x 16"
E3-20X18	20" x 18"
E3-20X20	20" x 20"

Keen® Journey™ Elite Contour Plus 3.5" Cushion

Up to and Including
Stage IV Wound/History
Braden Scale ≤ 11
Weight Limit: 350 lbs
Skin Protection +
Moderate Pelvic and
Leg Positioning

Product Description

- Designed for individuals with or at high risk for skin breakdown
- Revolutionary technology is pressure zoned
- Utilizes Sanoshere™ Technology that envelops bony prominences, providing ultimate comfort and pressure redistribution
- Deep contour and slight wedge in the Tru-Relief™ memory foam top layer is designed to encourage proper pelvic alignment and help prevent the pelvis from sacral sliding
- No maintenance required
- Excellent for **non-ambulatory individual**
- Choose Performance or EZ cover style. Select EZ Covers by adding EZ directly to the end of the Item # when ordering (Example: ECP3-16x16EZ)

Keen® Journey™ Elite Contour Plus 3.5" Cushion	
Item #	Size (W x D)
ECP3-16X16	16" x 16"
ECP3-16X18	16" x 18"
ECP3-18X16	18" x 16"
ECP3-18X18	18" x 18"
ECP3-18X20	18" x 20"
ECP3-20X16	20" x 16"
ECP3-20X18	20" x 18"
ECP3-20X20	20" x 20"

SANOSPHERE™ TECHNOLOGY

Sanosphere™ is a revolutionary technology that can perform better than air or gel cushions with no maintenance.

Sanosphere's dual hemispheres compress under an individual's shape and weight and distribute pressure throughout the seating area. Hemisphere diameters are different sizes to properly support and envelop the coccyx and ischial tuberosity regions, decreasing pressure to those areas most susceptible to pressure ulcers.

These twin hemispheres are comprised of Thermoplastic Polyurethane which is resilient and durable. They are 100% recyclable. They can compress up to 95% of their resting shape and rebound to their original shape and size.

The Sanosphere Technology calculates areas needing greater envelopment and stability and floats these areas using Hemi-Air Zones. This unique hemispheric design allows us to fine tune the interface, improving pelvic positioning and pressure redistribution. Sanosphere hemispheres are engineered to collapse under different loads; arranging the field of differently tuned Sanosphere reduces peak pressures and evenly distributes according to the shape and weight of the individual patient.

Sanosphere™ technology provides high-performance pressure redistribution with no maintenance required.

-  Coccyx Flotation Zone
-  Ischial Flotation Zone
-  Lateral Stability Zone
-  Leg Stability Zone
-  Central Stability Zone
